# Juliardi Dwi Anggoro

## Senior QA Engineer

keianggoro12@gmail.com
Jakarta, Indonesia
github.com/keianggoro12

Results-driven Senior QA Engineer specializing in end-to-end test automation with Playwright and TypeScript. Experienced in defining test plans, executing test cases, building automation frameworks, and collaborating cross-functionally to ensure product quality. Possesses a strong understanding of the full SDLC along with practical experience in personal web and app development.

## EXPERIENCE

### Senior Quality Assurance
Nov 2024 – Present
PT Tempo Inti Media Tbk
Jakarta, Indonesia

- Lead the QA team across the entire software development lifecycle from backlog grooming through to production release.
- Develop and maintain automated UI and API test frameworks using Playwright and TypeScript.
- Write and maintain user acceptance testing (UAT) scripts to validate system functionality against requirements.
- Collaborate closely with product teams to investigate issues, document bugs and tasks, and support deployment activities.

### Quality Assurance Automation Engineer
Nov 2024 – Mar 2026
Kinobi AI · Freelance
Singapore

- Develop and maintain automated UI and API tests using Playwright and TypeScript.
- Collaborate with QA engineers to implement maintainable and effective test scenarios.
- Apply automation best practices to improve test stability, reliability, and execution efficiency.

### Quality Assurance Engineer
Mar 2024 – Nov 2024
Kinobi AI
Singapore

- Execute comprehensive test cases for development tasks to verify proper system implementation.
- Build and maintain user acceptance testing scripts for continuous validation purposes.
- Investigate issues with engineering and product teams and log tracked bugs.
- Participate in project kick-off sessions and assist with application deployment activities.

### Student Mentor
Aug 2022 – Nov 2022
Terra AI
Singapore

- Mentored twenty students in conversational design and viral marketing chatbot development.
- Guided end-to-end chatbot creation from user research to functional prototyping.

### Chatbot Developer Intern (Tokobot)
Feb 2022 – Jul 2022
Terra AI · Internship
Singapore

- Built scalable chatbot infrastructure and features tailored to conversational design requirements.
- Optimized chatbot models for minimal data consumption and high operational efficiency.
- Delivered reusable chatbot templates for seamless adoption by micro and small businesses.

## EDUCATION

**Muhammadiyah Buton University** Jul 2018 – Nov 2022
Bachelor of Government Science · GPA 3.81/4.00 Baubau, Indonesia

- Graduated Cum Laude with a thesis on Lowu-Lowu Village public services.

## SKILLS

**Playwright** · Advanced

**TypeScript** · Advanced

**API & UI Automation Testing** · Expert

**Postman** · Expert

**Git & GitHub** · Advanced

## CERTIFICATIONS

**Certificate in Quality Assurance Engineer** · Alterra Academy | Feb 2024
drive.google.com/file/d/1VV4gDWP1Jy0ZkF37HyvzWDFm2-FNDKNP/view

- Completed intensive immersive training covering automation testing, API testing, and Agile methodologies.

**Advance Microsoft Excel** · MySkill Class | drive.google.com/file/d/1yj-fw99×6OtqdPQmb_adjoYhayNksvol/view
